Tilton's Gladiolus and Peonies

Satisfy Thousands

We are submitting to you, one of our gladiolus lists and if you find you are not interested, will you please to hand to a friend or some one who is interested in flowers. Will appreciate the favor.

The season of 1927 was a very good one for us. We did not sell as much bloom as usual but find at harvest time, our bulbs have increased beyond our expectations, many having as many as fifty to one hundred bulblets clinging to the parent bulb and where there was some little trace of disease last season the soil in new ground partially composed of clay has entirely eliminated all appearance of roughness and bulbs are like new silver dollars. We have found bulbs want good clean soil and nature will usually do the rest. A certain per cent of clay is, if well drained, just the kind for results. All clay is bad for harvesting.

We have never published any of the letters and testimonials from our customers but we get many of them and they are greatly appreciated as a satisfied customer is a good advertisement. Our idea is to follow out the golden rule in business. This, with our references of any bank or loan in the city of Ashtabula, ought to be sufficient to satisfy new customers.

Answering inquiries, we believe bulbs should be nearly four inches under ground when planted in sandy soil. About three in clay. Better moisture and more upright stalks in deeper planting. Use well drained soil but give lots of water after bulbs are well up out of ground. Top dressing with good fertilizer is excellent for good bloom. Cut the flowers after first bloom opens. Cut for yourself and friends. Fresh water daily, and clipping ends of stalks will insure bloom for many days. Cut four leaves from bottom.

Bulbs are listed at 10 and 100. 5 at 10 rate, and 25 at 100 rate. No. 3 will bloom first season. Our mixed bulbs, if you do not care for named kinds, will give you great satisfaction. These at the price of \$2.00 per 100.

We prefer to send bulbs by express but if sent by parcel post, can C. O. D. transportation. Make name and address plain in your order. We do not send bulbs C. O. D. No order under \$2.00.

Yours, for good bulbs,

E. N. Tilton,

178 Prospect St.

Ashtabula, Ohio.
